

Vol. XXIV. No. 98.

TELEGRAPHIC.

MISTAKEN IDENTITY. Winnipeg, Oct. 6. Wm. Girlestone, reported killed in C. P. R. yards, Winnipeg, is alive and the body of the victim is still unidentified.

THE SHAMROCKS DEFEATED AT THE COAST. The Westminster Shamrocks team beat the Montreal Shamrocks Saturday.

LIGHTNING STRIKES TORONTO'S TALL TOWER. Toronto's city hall was struck by lightning.

WINNIPEG POLICEMAN MISSING. Patrol Manager McLeod, of the Winnipeg force, is missing.

THE COAL STRIKE STILL ON. President Roosevelt discussed the situation with his cabinet Sunday. He will try to make a settlement. This outlook is not hopeful.

NEW DIVISIONAL SUPERINTENDENT ON C. P. R. D. G. Ross has been appointed C. P. R. divisional superintendent at Brandon.

GENERAL. The United States generals returning from German manoeuvres will be entertained in England as the King's guests.

Portage la Prairie board of trade discussed railway rates, C. P. R. shops branch, and the car shortage.

President William Mackenzie is on a trip of inspection over the C. N. R.

Rev. C. W. Gordon preached in Winnipeg, to a large crowd, on "Clean Sport."

Edward Carriere, of Winnipeg, dropped dead at Swan lake while fishing.

Lizzie Gibbons attempted to take her own life in a city drug house.

The wheat steamer Ottawa is on a bar near Port Arthur.

The Winnipeg defeated St. John at Rugby football.

Dregis attended Zolan's funeral but was not noticed.

Hon. A. L. Sifton was in the city yesterday.

WEATHER, CROPS AND PRICES. The weather is still superb; no severe frosts have occurred yet. Pansies, asters, sweet peas, and flowers, California poppies, verbenas, phlox, stocks, etc., are still in bloom in gardens in town.

Threshing and fall plowing are in progress, under most favorable conditions.

Marketing has not yet begun. Not a great deal of crop is ready for delivery yet, and buyers are not anxious to deal. The Macnaman-Kor Company offers \$25 as a top price. Prices are talked of as low as 20c.

Wheat is in much the same position as last week. It is not yet plain whether local mills will be able to buy on a straight export basis or will give the farmer above export price to hold the pool wheat for the home demand. There is more good wheat in the district than ever before, but there are also far more people to feed. For several years past the local mills have paid considerably over export price for good wheat.

A DAILY EXPRESS TRAIN. The report is current apparently on good authority that the C. & E. and C. P. R. have decided to put on a daily (except Sunday) express train between Calgary and Edmonton. This is much needed improvement and one that will be much appreciated. Official notification has not yet been received, but it is expected that the change will take effect about next Friday, October 10th. Then all trains will leave Edmonton at 8 or 8:30, which will be a great advantage to the travelling public. There is no doubt that the lack of a daily express train has kept a great deal of desirable travel away from Edmonton during the past summer.

Hon. Geo. E. Foster, manager of the Union Trust Company, of Toronto, arrived on Saturday's train on business for his company. On Sunday he was in the city. He will remain over tomorrow, and will stop off at Wetaskiwin, Lacombe, Red Deer, and probably other points down the line. Hon. Mr. Foster was minister of finance in the conservative government for many years until the defeat of that government in 1896. From 1896 to 1899 he was chief financial deputy of the opposition in parliament. In 1899 he was defeated in St. John City, by Hon. A. G. Blair, minister of railways. Since then he has turned his attention from politics to business. The company for which Hon. Mr. Foster is manager, opened business here last spring, and possibly his visit will result in a further extension of their business.

Hon. Mr. Foster is a native of New Brunswick, and was pleased to meet a number of men from that province in Edmonton.

—Joe Larose, of Larose & Starrett, returned Friday evening with a car load of farm horses which he secured from points south of Calgary, and brought up his stables for sale. He states that there had been much wet weather below Calgary. The roads were muddy and in poor shape. Two slight snow storms had already been reported this fall. Cattle were looking well. The crops were good, but not so far advanced as in Northern Alberta. On the return trip the train was delayed 2-1/2 hours at Fish Creek by the fire bug burning out.

—At the police court on Friday Magistrate Cowan imposed a fine of \$20 and costs on T. P. Carney for being drunk while intoxicated. W. Hensel was committed for trial by Major Belcher on a charge of assault with intent to do figure.

LOCAL. —Train on time. —Adam Aicher, of the Waldorf Hotel, Leduc, is in town to-day. —A. McNeil returned from a visit to New Westminster and Victoria on Friday last. —Smith Walker, of Guelph, Ont., has taken a position in J. A. Scovel's hardware store.

—Strathcona Rifle Association will hold its annual class firing on Friday and Saturday.

—Dr. Roy left on Saturday morning for Paris, accompanied by his wife who will go as far as Montreal.

C. Beauregard is building a flat boat at Fraser's landing on which to take supplies to St. Paul mission.

—Sam McCreedy is moving the Club House from Jasper avenue to the corner lot opposite the Grandview hotel.

—The Calgary Herald says that there is a block in building operations there owing to scarcity of carpenters and bricklayers.

—C. R. F. Kirkpatrick, T. A. Stephen and Geo. Gies are spending a few weekdays at Cooking Lake. They are expected back to-morrow.

—W. A. Fraser, the Canadian author, well known at Edmonton, is getting out a new novel, "Thoroughbreds." Geo. H. Morang is the publisher.

—McFarlane's C. N. R. survey party was camped at A. Boag's in the Agriola settlement yesterday. The line as projected passes close to Agriola school house.

—Annual meeting of the W. C. T. U. will be held at 3:30 p. m. on Wednesday (8th) in the school room of the Methodist church. A full attendance is requested.

—The Gallagher-Hull Company are erecting a large shed on their south side property. They intend bringing in a large band of sheep to winter here and for sale.

—Prof. Tyndall Richardson will give a magical entertainment in Ross hall, Strathcona, on Thursday evening, and Robertson hall, Edmonton, on Friday and Saturday evenings.

—A meeting of the hockey team is called for Wednesday evening at R. Scott's office, to arrange business for the coming season. All interested in hockey are invited to attend.

—McCarthy's Northwest government road gang is completing the grade on the St. Albert trail. Another day or two will finish the work. John Boag is on the trail on the south side of the river from the bridge towards Strathcona.

—Edmonton and Port Saskatchewan have held annual contests with picked rifle teams for a long time, but the Port have been winners for the last 15 years, until Edmonton scored a victory at the range last week. John Boag was captain of the first winning Port team in 1887, and captain of the first Edmonton team winning this year.

—The Massey-Harris Co., on Saturday sent out a complete threshing outfit to Geo. Aimeon, Stony Plain. It consists of a 25 horse power traction engine and 40 inch cylinder separator with blower and bagger. The machines are manufactured by Sawyer and Massey, Hamilton. Another separator will shortly be taken to the Indian agency.

—J. B. Hubback has begun work on the foundation of a new stable north of his present premises. Last week the town notified him that they may desire to purchase a strip 14 feet wide along the north side of his lot for the purpose of extending Rice street through to Fraser street. In that case the stable will have to be built 14 feet to the south. Accordingly work was stopped awaiting the decision of the town.

## PRAIRIE FIRES.

The wet seasons of the past two or three years have prevented all danger of fall prairie fires in this district, and as a consequence people generally have almost forgotten that there is or ever was any such danger. The result is a general carelessness in the putting out of camp fires, throwing away of lighted matches, etc., that may at any time result in a disastrous conflagration. The grass is now dry, and there has been a sufficiently long spell of dry weather to make all dead twigs, bushes and trees highly inflammable. The country is full of land seekers and others who do not understand the danger and have no personal interest in preventing destruction of property.

The fall has set in dry and warm and is likely to continue so. If the snow keeps off until late we will certainly have a long season during which the greatest care must be exercised to prevent the spread of fires both in and out of settlement. Already fires have run in the south country, and they only await the start to run here. The destruction of grass and timber which was the danger to be feared in the old days is added to now by the danger to stocks and stacks. A fire sweeping through any of our settlements now on a high wind would destroy thousands of dollars worth of valuable personal property where formerly the public right was the chief fear. Every one who has an interest in the district has an interest in keeping down prairie fires. Unlike many other misfortunes they are strictly preventable. All they require is care and lots of it, and if people can only be awakened to the importance of the subject the care can be given.

For the information of every one, and particularly strangers in the district, it may be mentioned that any person who lights a fire in the open air, except he is in a position to prevent its spreading is liable to fine and imprisonment. If it spreads under any circumstances he is liable to fine, imprisonment and damages. And if any person or party leaves a fire burning he or they or any of them are liable to fine or imprisonment or both, without consideration of whether it spreads or not. This means that lighted matches must not be thrown away carelessly, that traction or ordinary thrasher engines must not be handled carelessly, that fires for camp or cooking must only be started in the presence of sufficient help to keep them from spreading, and that fires for camp or cooking must be extinguished before the place is left. Fire guardians are or are supposed to be appointed in every district who are expected to see that breaking of the law is punished, and who have authority to call out assistance to quench fires.

Of course the enforcement of all law rests on public sentiment. The law as it is very good; but the main thing is to arouse public sentiment to the danger of carelessness with fires in the open air, so that the starting of such fires will be regarded not only as illegal but as a crime, to prevent which, and to secure punishment for which, every good citizen is interested.

It will be remembered that during the election of 1900 the attempt was made to delude the farmers of the west into the belief that the conservative party was in favor of free farm implements and machinery. Ever since Mr. Borden started on his present tour the Winnipeg Telegram has attempted to convey the same impression. But at a recent meeting held by Mr. Borden at Grenfell the Telegram reports that a number of written questions were handed Mr. Borden to which he gave specific answers. One of these was: "What about the freedom of farm implements and machinery?" To this Mr. Borden made the only reply he could make and which should settle the question as long as he remains at the head of the conservative party:

"I believe in such protection as is adequate for the maintenance of this and all other legitimate Canadian industries."

## Contract Grades of Grain.

Free Press: The council of the grain exchange, acting under the by-laws, today fixed the contract grades for the ensuing year. The contract grade will be No. 1 northern for the option market for wheat, and No. 2 white for oats.

For wheat No. 1 northern is to be the grade, provided that No. 1 hard may be delivered at a difference of two cents over, but the council after giving notice by posting on the bulletin board for one month, may cancel such right to deliver No. 1 hard; all contracts, however, made prior to such cancellation to stand as made.

## LITTLE'S BRICKYARD.

J. Little has closed down the machinery at his brickyard for the season. There still remains a few weeks' work to complete the burning and delivery of the brick, which is all sold.

Mr. Little states that this was the best season he has had yet. The early part was wet causing considerable loss of time, but the last two months have been exceptionally favorable to brick making. The season's output amounts to 1,000,000 brick. Of these 1,300,000 are already burned, and the remaining 300,000 are being put in kilns and burnt as rapidly as possible.

This output includes the brick manufactured in the Humboldt yard adjoining which Mr. Little has leased, and operates in conjunction with his own. It is only a small yard, however, having a horse power machine. Mr. Little used steam power this year for the first and a new press brick machine which was installed last winter. Next year an ornamental brick machine will be added to the plant, and additional sheds erected.

At present a kiln of 210,000 brick is cooling, and more are almost ready to turn, one being of sewer brick for the town. There has been 25,000 sewer brick turned out this fall. The drying sheds are very complete in construction. There are 21 sheds, each 250 feet long built side by side with aisles between wide enough to admit of two wheelbarrows passing. The sheds are covered with permanent roofs, with door like attachments on the eaves which can be let down to roof in the aisles in case of storm. Each shed contains 24 sets of shelves 11 feet high, on which the trays of brick are piled from the aisles on either side. The machinery is at one end of the sheds. The brick is wheeled from the machine as it is made and piled on the shelves to dry, after which it is wheeled out the other end to where the kilns are built. Each shed will hold 11,000 brick. Wood is used in burning the kilns, and this season's operations will consume 700 cords. A fresh supply will be laid in during the winter.

The whole season's output is already sold and is delivered as fast as it is burned. Last week 14,000 were shipped to Calgary while an order for 10 car loads from a Calgary contractor could not be filled. Mr. Little states that there is a ready market for half a million more brick than he is unable to supply.

## A LOST BOY.

Posters are out containing picture and asking for information of Herbert Arthur Young, only son of Constable Young, of Boissevain, Man., who has been missing for some time. The poster says:

"The lad is 14 years old, tall for his age, has fair complexion and blue eyes. His right arm having been broken is slightly crooked and smaller than his left. He ran away to the States, the latter part of July. His mother is very ill and nearly crazed with grief. No reason is known for his departure. He was fond of horses and cattle."

## BORDEN AT LETHBRIDGE.

The Lethbridge News of Sept. 24th,  
contains an account of the Borden  
situation there and gives in full the  
address presented to Mr. Borden by  
the Liberal conservative association of  
that place. Two addresses were pre-  
sented. One of welcome; the other of  
information and advice. Naturally the  
former address is the longer and more  
important; and being carefully worded,  
it is not a claim for compensation  
from the Dominion to the proposed  
Northwest province for lands  
granted to railways outside the Terri-  
tories and to the transcontinental rail-  
ways. This seems to be absolutely fair.  
But it is hardly fair not to inform  
the leader of the liberal conservative  
party that it was his predecessors in  
that leadership when in power who  
granted the 39,000,000 acres of railway  
land which forms the basis of the asser-  
tion of the Liberal conservative party.  
The association has been informed that it is the intention  
of the present government to dispose  
of the present government to dispose  
of ten million more acres of land in  
grants to railways. It would be in-  
teresting to know just where the infor-  
mation was procured. It is a part  
of the declared policy of the present  
government not to grant lands to railways  
as a matter of fact since they took  
office in 1896 they have not made any  
such grants, and many thousands of  
acres which had been scheduled to rail-  
way companies by their predecessors  
have been declared forfeited for non-  
fulfillment of terms. The terms of the  
address leave it to be inferred inter-  
estingly no doubt—that the present  
government is responsible for a part  
of the immense land grants made when  
the directly opposite is the case.

The second asks that lands granted  
to railways be granted at a fixed value,  
at which they must be disposed of to  
settlers. This is also a very fair  
proposition. But it is not nearly as good  
as not granting lands to railways at all.  
Notwithstanding the complaint  
against the grant of lands to railways  
outlined in the first paragraph, the  
second takes or granted that the  
policy will be adhered to by the con-  
servative party, it is clear that in fu-  
ture it will be given as bonuses  
for the construction of railways and  
other public improvements, they  
should be granted at their full market  
value, etc. New comers to the country  
will understand from this how closely  
the conservative party is tied up with  
land grant schemes, when the very as-  
sociation which points out the injustice  
done by those grants does not expect  
its friends to abandon the system.

Number three they claim the right  
to tax all lands, and compensation for  
all tax exemptions (whether made  
again a very proper claim, and again  
a claim against the policy of the party  
to which they belong and which policy  
and leader they support. It was the  
conservative party which granted the  
exemptions, and it was the liberals  
now coming into office that have done  
all that has been done to terminate  
tax exemptions.

Number four deals with provincial  
autonomy. The association expresses  
a desire for provincial organization  
but says: "Let much as we desire pro-  
vincial autonomy we cannot accept it  
until our rights to the public domain  
is fully established and the power to tax  
all lands granted. We trust that you  
may see your way to support our  
interests in these matters, and to firmly  
reject all proposed compromises, that  
would give to the new province to be  
formed anything short of its full  
rights." It will be observed that with  
the Lethbridge conservatives as with  
those of the people of the Territories  
provincial autonomy is a question of  
honor and not merely of sentiment, as  
the leader of the opposition and his  
friends seemed to believe.

Passing to local questions the association  
says: "There is an abundance of  
land near to Lethbridge which should  
be available for homesteading, but the  
government will not open it until the  
railways select their lands. Then large  
tracts, from one to seven townships,  
situated along the rivers, have been  
granted to single individuals or com-  
panies, and so there is but little de-  
velopment, and our town suffers." Here  
again the conservative association  
gives evidence as to the impolicy of  
the railway and other land grants made  
by the conservative party and as to  
the effect of those grants upon the

growth and development of the coun-  
try.

And finally the association hands  
the sitting member the following com-  
plimentary notice: "Nominally we  
have representation at Ottawa, but our  
member lives at Edmonton, 300 miles  
to the north, and is either unacquaint-  
ed with our needs here, or is so engrossed  
with the wants of his own district that  
he has accomplished but little for us."

It is true that the member who re-  
presents Alberta lives 300 miles away  
and it is also true that at the last  
election the people of Lethbridge en-  
dorsed his candidature over that of the  
candidate who lived only 100 miles away  
by a very handsome majority. It is  
not a graceful act to call up services  
rendered or benefits received. But in  
view of the bald statement of the con-  
servative association and in justice to  
the sitting member and the present  
government a little refreshing of mem-  
ory may not be out of place. A court  
house had been erected at Lethbridge  
by the previous administration. Rumor  
says as the agreed price of the Leth-  
bridge vote for the candidate of the  
conservative government at a previous  
election, it had never been used for  
the purpose for which it was built and  
indeed had never been furnished for  
that purpose until after the sitting  
member interested himself in getting  
it put in order. The St. Mary's river  
railway, which is directly a Lethbridge  
enterprise received a cash—not a land  
—bonus of \$2,500 a mile for the thirty  
miles already constructed, and if the  
balance of the 50 miles contemplated  
has not been bonused the fault is not  
that either of the sitting member or  
of the liberal government. When the  
liberal government took office and the  
sitting member was first elected Leth-  
bridge had communication by narrow  
gauge railway to Dunmore on the east  
and to Great Falls on the south. In  
common with the rest of Southern Al-  
berta and of the whole of Canada it  
was in a very serious state of finan-  
cial depression. As the direct result  
of a cash bonus of \$11,000 a mile given  
by the liberal government the Crow's  
Nest railway was constructed. From  
Lethbridge west, new life was infused  
into the whole of Southern Alberta,  
Lethbridge included. Today Leth-  
bridge is on a through broad gauge line  
carrying daily trains each way, and has  
become a wholesale centre with an im-  
portant and increasing trade. And  
when the question of the construction  
of the Crow's Nest line was under con-  
sideration, and it was declared to be  
the intention of the C. P. R. to give  
Lethbridge the go-by, crossing the  
Belly river at the mouth of the Little  
Bow, when the question of location of  
the line was a matter of life and death  
to the town, whose interest did the  
town of Lethbridge and with what  
result? The enormous trouble work  
by which the St. Mary's river and  
valley are crossed, and the Crow's Nest  
train hooking a mile into town twice  
every day, are the answer. There may  
be places in Alberta which have suf-  
fered from the neglect of the sitting  
member and of the liberal government  
but Lethbridge is not one of them.

## EDMONTON RIFLE ASSOCIATION.

The first fall shooting matches of the Edmonton Rifle Association took place on their ranges on Thursday, Friday and Saturday of last week. The weather throughout was fine and bright but at times there was a shifting tail breeze which accounted for some uncertain shooting at the longer ranges.

Fort Saskatchewan and Strathcona each sent a number of members to take part, each including a team of four to compete in the team shoot. The programme included the following matches: Association, Nursery, Licensed Victuallers, Merchants', Sweepstakes, Team Shoot, and prizes for the Grand Aggregate.

The prize winners in the various matches are given in order below. Outside the prize money the trophies consisted of three cups presented by the Hudson's Bay Co., Dr. Wilson, and the Licensed Victuallers, and a clock presented by H. Sigler.

The Hudson's Bay Co's cup, given for first place in the Grand Aggregate was won by John Forbes, the Wilson cup for second place by W. E. Heist, and the Sigler clock for third place by McLellan. The Licensed Victuallers' cup was won by John F. Forbes.

A banquet in honor of the visiting marksmen was held Saturday evening in the Grandview hotel. It was chiefly attended by members of the rifle associations. A sumptuous repast was partaken of, after which a pleasant evening was spent in speeches, songs

and story telling. This brought to a close the first matches of the association which were both very enjoyable and successful.

## FUNERAL OF WILLIAM STIFF.

The funeral of the late Wm. Stiff, who died on Friday morning, took place yesterday at 2 p.m., from the undertaking rooms of Macintosh & Campbell to the English church where services were conducted by G. C. d'Easum, of Fort Saskatchewan, thence to the Edmonton cemetery for burial.

The Free Masons, of which deceased was a member, walked in the procession. The pall bearers were Messrs. Robertson, Sutter, Secord, Oatcor, Stephenson and K. MacDonald. There was a large attendance. Deceased was 70 years of age.

### The Tariff Needs Revision.

Winnipeg Tribune.

The cry has been raised that the tariff needs revision, and he would be a bold bird who would pronounce it perfect.

A most superficial glance at the schedule shows that the need of revision is pressing. For example, axes, crowbars, chain traces of iron, files, horseshoes and nails, saws and tools of all kinds are taxed 30 per cent. A tax of almost one-third the value of these things, that every farmer must buy, is unquestionably excessive. It is absolutely unreasonable and grossly unfair. That language is not too strong.

What would the Canadian makers of these articles say if, when buying food supplies, they were forced to pay an addition of almost a third on the price to the farmers? The tariff certainly needs revision. The tax on axes, scythes, forks, garden cokes, and stationary engines is 25 per cent, or just a quarter of their value. This is a little lower, but it is still above a revenue basis. All kinds of furniture as well as grates for cooking, also builders' hardware, are taxed 30 per cent. Any farmer buying these articles and realizing that more than a quarter of the money he pays is taxation to the government or to the protected manufacturer will agree that the tariff needs revision and needs it badly.

What we need is a duty of 35 per cent on iron and steel bridges. Every taxpayer in a county or township with a bridge to build must realize, when the tariff enables the manufacturer to increase their prices by more than a third, that the tariff is in need of revision. The 35 per cent list is far too long to enumerate. It includes hankers' and many articles of cotton or linen, also wall paper, umbrellas, wringers, and cotton bags. These are articles which every farmer must buy, and the price he is forced to pay goes beyond question the need of a revision of the tariff. In fact, if the farming community could be made to realize what the protection system costs, then there would be a revision of the tariff or a change of government at the next election. There is a protection of 35 per cent on woolen stockings and socks, fabric ready-made clothing and cotton handkerchiefs or dyed. Familiarity blinds us to the enormity of such imposts, but they inflict a wrong that demands redress. The British preference is a mitigation of the evil on some lines, but in those cases where the British manufacturer does not make the articles we require it affords no relief whatever. The general duty on cotton and linen skirts and blouses is now 35 per cent more than their value. But it is needless to go further through the list. The imperative necessity of tariff revision requires no further argument.

### A Lead Trust

New York, Sept. 26.—The Herald says today: "Plans practically were concluded yesterday for the formation of a mammoth lead combination which will include all the important lead manufacturing concerns in the country. Its capital will be at least \$30,000,000."

"The scope of the new combine will include manufacturers of sheet pipe, and lead shot and white lead. In addition the American Smelting and Refining Co., which is the largest producer of pig lead in the country, will be largely interested as a stock holder."

### Fuel Famine in Montreal.

Montreal, Sept. 29.—The coal situation in Montreal is becoming serious. The city consumes about 300,000 tons of hard coal a year, and about 75,000 tons have already been consumed. Even if the strike were to end to-morrow there is no possibility of the transportation companies able to haul the 250,000 tons required. To make matters worse there is also a shortage of soft coal and wood.

### Alberta Coal for Winnipeg.

Travellers who have been out in Alberta say that there is a good supply of coal north of Frank, a new town on the Crow's Nest railway, near Blairmore. A company has been formed to work this coal bed, which contains a good coal, between a hard and a soft variety. The company has two square miles of the coal land and an extension of seven miles of the railway is being built to carry the coal. The company expect to have this coal on the Winnipeg market about the 15th of December, for at latest by Christmas. It is said that it will be furnished by the company at such a price that it can be retailed at from \$8 to \$9 per ton, and the new company claims that it will last 24 hours in a furnace.

### Those Who Earned Medals.

The following are the Canadians who served in the South African irregular corps during the war and are entitled to the medals which have been received by the militia department: F. D. Londer, Kitchen's Horse, medal; J. Murray, Kitchen's Horse, J. R. M. L. Kafir Mounted Rifles, V. G. Robertson, Kafir Rifles; J. Morrison, Second Brabant's Horse; J. M. L. 1st Scottish Horse, J. O'Shaughnessy, 1st Scottish Horse; M. Killey, 4th Light R. F. A.; C. H. Chapin, Remington's Rifles. The last named is entitled to six clasps, all the others are entitled to only three.

### Canadian Trade in the Yukon

Ottawa, Sept. 30.—The customs department has received an unrevised statement of goods entering the Yukon and Northern British Columbia, but the White Pass R. and Yukon routes or the year ending June 30, last. The Canadian goods entering the country amounted to \$3,100,191, and foreign goods \$1,192,361. Excess of Canadian goods over foreign of \$1,916,870. The figures of the current year show that Canadian business men are alive to the importance of trade with Yukon.

### DIPHTHERIA IN REGINA

The Regina Leader of Oct. 2nd reports diphtheria somewhat prevalent here and three deaths a few days before. The public school was closed from Tuesday, Sept. 30th, until Tuesday, Oct. 7th and the high and normal schools from Friday, Oct. 3rd until Tuesday, Oct. 2nd. Considering the evident prevalence and virulence of the disease, the preventive measures taken do not seem to have been at all drastic, especially when it is remembered that 100 students from all parts of the Territories are attending normal school.

### Macleod Court House.

Patrick Navan, of Cranbrook, B. C., will receive the contract for the court house and jail at Macleod, N. W. T. Twelve thousand dollars was appropriated for this work by parliament last session.
